

# READER PROMOTION

Special themed book collection including unique display bin and header

International and cultural books have become highly desirable and this promotion is all about expanding the horizons of your readers and the diversity of the books on your shelves.

The black interest titles assembled here as a single collection for the first time, were selected with the help of Penguin Books to highlight the history and culture of African heritage. The books have been split into two categories, non-fiction and fiction and each contains eye catching titles with strong African influences throughout:

## Facts Collection

The non-fiction collection contains titles shortlisted for the Alan Paton Prize in South Africa including "Africa: A Biography of the Continent" as well as classic titles looking at famous black figures such as Malcolm X and Nelson Mandela.

This influential collection of 35 factual books is a great resource for special events and promoting racial equality.

## Fiction Collection

This collection includes prize winners from the Whitbread Prize (First Novel), Orange Prize and Somerset Maugham Award's.

This riveting collection of 25 modern and contemporary tales of fiction, takes your readers from oppressive colonial society to apartheid Cape Town and into the depths of the dark and mysterious Congo.
